Infusion Set – 05A01

ADVIN infusion set is to deliver insulin under the skin. It is a complete tubing system to connect an insulin pump to the pump user: it includes a subcutaneous cannula, adhesive mount, quick-disconnect, and a pump cartridge connector.

Infusion Set also known as Intravenous Administration Set / IV Set / Perfusion Set / Gravity Set Etc.

Advanced Features:

- 👉 Cylindrical collapsible drip chamber to visualize the flow rate
- 👉 Sharp spike for better penetration of glass/plastic bottles
- 👉 Smooth, flexible, kink resistant tubing / non toxic medical grade P.V.C. granules
- 👉 The set is for single use, non-toxic, Non Pyrogenic and sterile
- 👉 Flash ball type injection port for extra medication
- 👉 Drops rate : 20 drops / ml
- 👉 Sterile and individually packed

Available In:

- 👉 Air- Vented / Non -Vented
- 👉 Tube Latex / Latex Free
- 👉 Y – Injection / Tube
- 👉 With / Without Needle
- 👉 DEHP Free Material
- 👉 20 / 60 Drop per ml
- 👉 With needle 21 G
- 👉 Microdip

Product Code:

Product	Size	Code
Infusion Set		05A01

* Also, we can customize Infusion Set as Per Client's requirement.

Blood Transfusion Set – 05A02

Blood transfusion is the process of transferring blood or blood-based products from one person into the circulatory system of another. Blood transfusions can be life-saving in some situations, such as massive blood loss due to trauma, or can be used to replace blood lost during surgery. It is also known as Blood administration set.

Advanced Features:

- 👉 Sterile, single use & non-pyrogenic
- 👉 Clear transparent & flexible drip chamber
- 👉 Accurate flow Controller
- 👉 Extra smooth 18G vein needle
- 👉 Made From Non- toxic medical grade PVC compound
- 👉 Clear, Transparent & flexible double drip chamber
- 👉 Soft kink resistant medical grade PVC tube of 150 cm
- 👉 Individually packed

Available in:

- 👉 Vented / non-vented Chamber
- 👉 Latex / Latex Free
- 👉 Single / Double Chamber
- 👉 With needle / Without Needle
- 👉 Tube / Flash Bulb / Y injection Needle

Product Code:

Product	Size	Code
Blood Transfusion Set		05A02

* Also, we can customize as per client's requirement.

IV Cannula (Intravenous Cannula) – 05A03

A cannula is a tube that can be inserted into the body, often for the delivery or removal of fluid or for the gathering of samples. In simple terms, a cannula can surround the inner or outer surfaces of a trocar needle thus extending the effective needle length by at least half the length of the original needle.

Advanced Features:

- 🏠 Sterile, single use & non-pyrogenic
- 🏠 Bevel type needle for easier less traumatic insert
- 🏠 Injection port with one way valve and color coded cap for intermittent and safe administration of drugs during infusion
- 🏠 Flexible and kink resistant catheter is double tapered with rounded tip for smooth introduction and minimum discomfort to the patient
- 🏠 High transparent flash back chamber for an easy view of returning blood
- 🏠 Flexible wings provide easy and secure fixation and also prevent skin contact with luer lock connector
- 🏠 Luer Lock cap for closing the proximal end of the catheter after removing the needle
- 🏠 Individual blister pack & ETO Sterilization

Product Code:

Product	Color	Size	Code
IV Cannula	Orange	14G	05A0314
IV Cannula	Gray	16G	05A0316
IV Cannula	White	18G	05A0318
IV Cannula	Green	20G	05A0320
IV Cannula	Pink	22G	05A0322
IV Cannula	Yellow	24G	05A0324
IV Cannula	Violet	26G	05A0326

IV Cannula Fixator – 05A04

IV Cannula Fixator Tape is helpful for fixing IV Cannula and general use. Made as per B. P. standards. Skin coloured elastic flamigrip cannula fixator and porous adhesive used for air circulation. It is convenient and saves nursing time.

Advanced Features:

- 👉 Fixes the cannula, prevents pain
- 👉 Used For Fixation IV cannula / Catheter
- 👉 Prevents infusion related phlebits
- 👉 Breathable pores on bandage for better skin health.
- 👉 Better flexibility gives better support, patient can move easily

Product Code:

Product	Size	Code
IV Cannula Fixator		05A04

Blood Donor Set – 05A05

blood Donor Set is used to make a variety of different products, including: red cells – carry oxygen. Most recipients of donated blood are given red cells to boost the oxygen-carrying abilities of their own blood.

Advanced Features:

- 🩺 Super smooth kink resistance tubing ensure uniform flow rate
- 🩺 Safe control & adjustment of fluid rates
- 🩺 Smooth roller clamp facilitates easy
- 🩺 Individually packed, Sterile & Disposable
- 🩺 16 G needle extra fine needle for smooth & effortless vein puncture

Product Code:

Product	Size	Code
Blood Donor Set		05A05

Disposable Syringe – 05A06

syringe and needle market include disposable and safety syringes, injection pens, needleless injectors, insulin pumps, and specialty needles. Hypodermic syringes are used with hypodermic needles to inject liquid or gases into body tissues, or to remove from the body.

Advanced Features:

- 🏠 Non- toxic, Non-Pyrogenic
- 🏠 Sterile Single Use
- 🏠 Compatiable with all medications
- 🏠 Transparent & smooth sliding plunger
- 🏠 Latex Free Elastomer Gasket
- 🏠 Luer Mount, with or without needle
- 🏠 Ultra sharp needle, minimum pain
- 🏠 Available in Ribbon & Bilster Pack

Product Code:

Product	Sizes	Needle	Code
Disposable Syringe	1ml	25G-28G	05A0601
Disposable Syringe	2ml	21G-26G	05A0602
Disposable Syringe	3ml	21G-26G	05A0603
Disposable Syringe	5ml	21G-24G	05A0605

Disposable Syringe	20ml	21G-22G	05A0620
Disposable Syringe	50ml	21G – 22G	05A0650

Insulin Syringe – 05A07

An insulin syringe has three parts: a needle, a barrel and a plunger. Parts of an Insulin Syringe. The needle is short and thin. It is made of a special material that allows the needle to slide through the skin easily with less pain. It comes with a cap to cover and protect it before it is used.

Advanced Features:

- 🏠 Short & thin Attached needle
- 🏠 Sterile Single Use
- 🏠 Easy to use
- 🏠 Transparent & smooth sliding plunger
- 🏠 Latex Free Elastomer Gasket
- 🏠 Luer Mount, with or without needle
- 🏠 Available in Ribbon & Bilster Pack

Product Code:

Product	Sizes	Needle	Code
Insulin Syringe	1ml/cc	28 ½ G	05A07A
Insulin Syringe	1ml/cc	26 ½ G	05A07B

IV Flow Regulator – 05A08

Flow Regulator used to accurately control & regulate the flow of I. V. Fluids. Using for the infusion of liquid substances directly into a vein. Provides reliable accuracy rate across the adjustable rotor to maintain flow stability.

Advanced Features:

- 🩺 Disposable, Sterile & non-pyrogenic
- 🩺 Super smooth kink resistance tubing ensures uniform flow rate
- 🩺 Two hand operation eliminates the danger of accidental tampering
- 🩺 Latex free y-site
- 🩺 With Y Connectors injection site for extra medication
- 🩺 Control flow rate from 5 – 250 ml/hr Manually

Product Code:

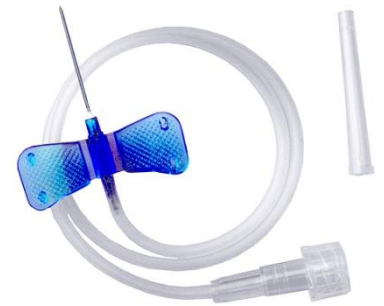

Product	Sizes	Code
IV Flow Regulator		05A08

Scalp Vein Set – 05A09

Winged infusion set—also known as "butterfly" or "scalp vein" set—is a device specialized for venipuncture: i.e. for accessing a superficial vein for either intravenous injection or phlebotomy.

Advanced Features:

- 🏠 Scalp vein set having short beveled siliconed needle facilitates atraumatic cannulation
- 🏠 Designed to provide rapid venous access, for patient comfort during infusion
- 🏠 Butterfly wings provides better & easy fixing
- 🏠 Flexible wings needle for paediatric & geriatric use
- 🏠 Butterfly are color coded for instant identification of needle size
- 🏠 The proximal end of the set is provided with flexible female luer fitting
- 🏠 Non-toxic, non-irritant tube
- 🏠 Siliconized, ultra sharp, stainless steel, bevel tip needle. Effective needle length: 20 mm
- 🏠 Individual packed plastic/paper/blister & ETO Sterilization

Product Code:

Product	Size	Color	Code
Scalp Vein Set	18G	Pink	05A0918
Scalp Vein Set	20G	Yellow	05A0920

Three Way Stop Cock – 05A10

Three way stop cock Used for simultaneous and continuous infusion of two fluids to connect.

Advanced Features:

- 🏠 3 Way stopcock are suitable for use during
- 🏠 Pressure infusion & invasive blood pressure monitoring
- 🏠 Made in medical grade, Clear transparent polycarbonate
- 🏠 3 arm handle is easy to operate
- 🏠 Minimum residual volume, rigid construction with circular flow-channel
- 🏠 Prevents the incidence of air-trap
- 🏠 Provided with two female luer lock ports & one male luer lock port with rotating lock, for safe connection to other device

Product Code:

Product	Size	Code
3 way Stop Cock		05A10

High pressure Monitoring line – 05A11

Advin Pressure Monitoring lines used for extending medical tubing & Pressure Monitoring.

Advanced Features:

- 🩺 Desinged for arterial blood pressure monitoring
- 🩺 Soft, Clear, Flexible 100% leak proof & no blockage tubing
- 🩺 Fitted with male and female luer locks for secure connection
- 🩺 Kink Resistance PVC compound
- 🩺 Sterile , Non - Toxic ,and pyrogen free
- 🩺 Also Availble with 3 way stop cock

Product Code:

Product	Size	Code	With stopcock

Measure volume Burette Set – 05A12

Advin Measure Volume burette (also buret) is a graduated glass tube with a tap at one end, for delivering known volumes of a liquid, especially in titrations.

Advanced Features:

- 👉 Measure volume: 110 ml / 150 ml
- 👉 Kink Resistance tubing
- 👉 Easy to read scale with white contrast background
- 👉 Floating auto shut off valve acts as floating indicator and automatically shut off the drain path when the chamber gets empty to prevent any air trapping into the fluid line on entering patient's venous systems
- 👉 Micro Dropper of 60 drops per ml
- 👉 Roller type flow controller provides accurate flow control
- 👉 Sterile, individually packed

Available In:

- 👉 Airvent / Non – Airvent
- 👉 Needle / Without Needle
- 👉 Available Y Connection
- 👉 Available Luer Lock
- 👉 Latex / Latex Free

Product Code:

Product	Size	Code
Measure Volume Burette Set	110 cm	05A12110
Measure Volume Burette Set	150 cm	05A12150

* Also, we can customize as per client's requirements

Yankauer Suction Set – 05A13

The Yankauer suction is an oral suctioning tool used in medical procedures. It is typically a firm plastic suction tip with a large opening surrounded by a bulbous head and is designed to allow effective suction without damaging surrounding tissue.

This Yankauer Suction Set is used to suction oropharyngeal secretions in order to prevent aspiration. A Yankauer can also be used to clear operative sites during surgical procedures and its suctioned volume counted as blood loss during surgery.

Advanced Features:

- 👂 Suction set yankauer with angled suction cannula
- 👂 Suitable for pre-operative removal of secretion of body fluid
- 👂 Universal connectors are moulded from Soft PVC
- 👂 Proximal end can fix with any type of suction apparatus
- 👂 Complete set with other type of Suction tips are also available
- 👂 Individually packed & sterile

Product Code:

Product	Size	Code
Yankuer Suction Set	-	05A13

Karman Cannula – 05A14

The flexibility of the Karman cannula was claimed to reduce the risk of perforating the uterus during vacuum aspiration.

Advanced Features:

- 🩺 Specially designed for aseptic medical termination of pregnancy
- 🩺 Distal end is coned with two large lateral eyes to facilitates the curette
- 🩺 Suitable for use with MTP syringe or suction apparatus individually packed
- 🩺 Sterile, Non-toxic & pyrogen free

Product Code:

Product	Size	Code
Karman Cannula	4 mm	05A1404
Karman Cannula	5 mm	05A1405
Karman Cannula	6 mm	05A1406
Karman Cannula	7 mm	05A1407
Karman Cannula	8 mm	05A1408
Karman Cannula	9 mm	05A1409
Karman Cannula	10 mm	05A1410
Karman Cannula	11 mm	05A1411
Karman Cannula	12 mm	05A1412

Urine Collection Bag – 05B01

Urine Collection Bag will attach to a catheter that is inside your bladder. catheter and urine drainage bag because you have urinary incontinence (leakage), urinary retention (not being able to urinate), surgery that made a catheter necessary, or another health problem.

Advanced Features:

- 🏠 Manufactured from clinical grade non-toxic, transparent medical PVC sheet
- 🏠 Super Smooth kink resistant tube
- 🏠 Provided with non return valve to prevent back flow of fluid & bacterial migration
- 🏠 Sterile, individually packed

Available in:

- 🏠 2000 ml / 1500ml Capacity Bag
- 🏠 Top / Bottom Outlet
- 🏠 Various type of outlet valve T type
- 🏠 Hanger Option
- 🏠 Sampling Port

Product Code:

Product	Size	Code
Urine Collection Bag	1500 ml	05B0115
Urine Collection Bag	2000 ml	05B0120

* Also, we can customize as per client's requirements

Leg Urine Collection Bag – 05B02

Urine Collection Bag will attach to a catheter that is inside your bladder. Catheter and urine drainage bag because you have urinary incontinence (leakage), urinary retention (not being able to urinate), surgery that made a catheter necessary, or another health problem.

Advanced Features:

- 🏥 Used for short term & long urine collection
- 🏥 Provided freedom to the patient to move freely as the leg
- 🏥 Manufactured from clinical grade non-toxic, transparent medical PVC sheet
- 🏥 Available with leg straps
- 🏥 Sterile, individually packed

Product Code:

Product	Size	Code
Leg Urine Collection Bag	800ml	05B02

Paediatric Urine Collection Bag – 05B03

Pediatric Urine Collection Bag is infants refers to the method of getting a urine sample from a baby for testing purposes. Paediatric Urine Collection Bag is meant to be used for short term urine collection.

Pediatric urine collectors, urine collectors , pediatric urine collection, infant urine collection bag, urine collection in infants and children, urine collection from a child.

Advanced Features:

- 🏠 Manufactured from clinical grade plastic sheet
- 🏠 non-toxic and safe to use
- 🏠 Provided with adhesive tape
- 🏠 Capacity: 100 ml approx
- 🏠 Individually packed & sterile

Product Code:

Product	Size	Code
Pediatrics Urine Collection Bag	100ml	05B03

Urine Collection Bag with Measure Volume Burette

Urometer – 05B04

The urinometer, a type of hydrometer, was used for measuring the specific gravity of urine. Specific gravity is a function of the number, density and weight of the solute particles present in the urine, and is used as a measure of the concentrating power of the kidney.

Advanced Features:

- 🕒 Designed for measurement of hourly urine output
- 🕒 Clear & transparent measured volume chamber provides accurate measurement
- 🕒 Attached from 2000 ml urine Bag
- 🕒 Completely closed circuit system the eliminate the risk of contamination
- 🕒 Soft, Kink resistant medical grade PVC tube
- 🕒 Bottom or top outlet
- 🕒 Volume meter: 250 ml
- 🕒 Urine Bag : 2000 ml
- 🕒 Individually packed & sterile

Product Code:

Product	Size	Code
Urometer	2000 ml	05B04

TUR (Trans Urethral Resection) SET – 05B05

TUR Set is used For endoscopic irrigation during the Trans Urethral Resection of the prostate gland. TUR Set is used For endoscopic irrigation during the Trans Urethral Resection of the prostate gland.

Advanced Features:

- 🩺 Manufactured from clinical grade non-toxic, transparent medical PVC sheet
- 🩺 Y shaped connector facilitates alternative changes solution
- 🩺 Thumb operated clamps smooth change of bottle
- 🩺 Proximal end fitted with flexible latex tubing for easy connection to endoscope
- 🩺 Y shaped set for endoscopy irrigation during trans-urethral resection of prostate gland
- 🩺 ETO Sterile, individually packed

Product Code:

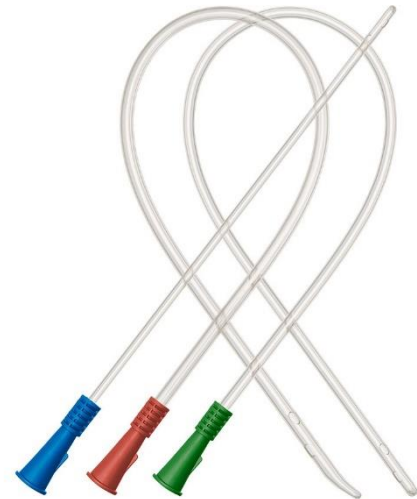

Product	Size	Code
TUR SET		05B05

Nelaton Catheter – 05B06

Nelaton Catheter are used for intermittent catheterization and are markedly different to chronic in dwelling catheter and external catheters. Nelaton catheter is used to short term bladder catheterization. Nelaton Catheter also known as Urethral Catheter.

Advanced Features:

- 🏠 Super smooth kink resistance tubing
- 🏠 Manufactured from non-toxic, non-irritant medical grade PVC material
- 🏠 Compatible with catheter lubricants
- 🏠 Smooth intubation
- 🏠 Coned distal end for atraumatic catheterization
- 🏠 Two lateral eyes for efficient drainage
- 🏠 Radiopaque line provided throughout the length of the catheter for X-ray visualization
- 🏠 Universal funnel shape connector for easy connection to urine bag
- 🏠 Sterile & individually packaged
- 🏠 Length: 40 cm

Foley Balloon Catheter – 14I05

Foley catheter is a flexible tube that a clinician passes through the urethra and into the bladder to drain urine. It is the most common type of indwelling urinary catheter.

The tube has two separated channels, or lumens, running down its length. One lumen, open at both ends, drains urine into a collection bag. The other has a valve on the outside end and connects to a balloon at the inside tip.

Advanced Features:

- 👂 Symmetrical large capacity balloon ensuring a straight tip for proper flow and good sphincter action thus preventing bladder leakage
- 👂 Used for short/long term urine drainage
- 👂 Manufactured from natural rubber coated with silicone to eliminate the risk of encrustation
- 👂 Also Made from Silicone Material
- 👂 Coned distal end provided with burr free eyes for atraumatic intubation
- 👂 Hard valve ensures easy inflation and deflation of balloon
- 👂 Color coded for instant size identification
- 👂 Sterile, individually packed in peelable pack

Rectal Catheter – 05B07

Rectal tubes may be safely and effectively used to prevent soiling in critically ill patients with diarrhea. The use of rectal tubes as adjuncts to healing and preventing pressure sores in critically ill patients merits further study.

Advanced Features:

- 🏠 Made from medical grade PVC
- 🏠 pen distal end is open with one lateral eye for efficient drainage
- 🏠 Smooth Finish & non toxic
- 🏠 colour coded Funnel for instant size identification
- 🏠 Sterile & individually packaged
- 🏠 Length: 40 cm

Male External Catheter – 05B08

Male External Catheters, also commonly referred to as condom catheters or male catheters, are used by men to treat urinary incontinence. This type of catheter consists of a flexible sheath that slides over the penis just like a condom.

Advanced Features:

- 🏥 Catheter are made from Natural Latex Rubber
- 🏥 Specially designed for urine incontinence for day & night use in male patients
- 🏥 Provided with soft adhesive coated strip for proper fixing on the penis
- 🏥 safe & easy connection to urine container
- 🏥 Individually packed

Product Code:

Product	Size	Code
Male External catheter	Small	05B08S
Male External catheter	Medium	05B08M
Male External catheter	Large	05B08L

Adhesive Tape – 05C01

Adhesive tape refers to any one of a variety of combinations of backing materials coated with an adhesive. Different backing materials and adhesives can be used depending on the intended use.

Advanced Features:

- 👉 Used for dressing open injuries and cuts
- 👉 Suitable cloth of cotton or rayon or both mixed, also separate
- 👉 Strong adhesion
- 👉 Adhesive for all skin types for all atmospheric
- 👉 Suitable for minimum skin irritation
- 👉 Adhesive mass containing zinc oxide
- 👉 Cloths finished to good white or dyed flesh skin color
- 👉 Non – toxic

Adhesive Tape / Surgical Adhesive Tape	5 cm x 5 Meter	05C0105
Adhesive Tape / Surgical Adhesive Tape	7.5 cm x 5 Meter	05C0107
Adhesive Tape / Surgical Adhesive Tape	10 cm x 5 Meter	05C0110

Surgical Tape – 05C02

Surgical tape or medical tape is a type of pressure-sensitive adhesive tape used in medicine and first aid to hold a bandage or other dressing onto a wound.

These tapes usually have a hypoallergenic adhesive which is designed to hold firmly onto skin, dressing materials, and underlying layers of tape, but to remove easily without damaging the skin. It is also known as Micropore surgical tape.

Advanced Features:

- 👂 Gentle on skin
- 👂 Comfortable and highly Breathable
- 👂 Hypoallergenic, Brethable paper tape for sensitive patients
- 👂 Latex Free
- 👂 Reliable secure dressing and devices to skin
- 👂 Suitable for cotton or rayon or both mixed or separately
- 👂 best for securing small to medium dressings, especially on damp skin
- 👂 Provide maximum comfort and protection

Roller Bandage – 05C05

Roller bandage is a "stretchable bandage used to create localized pressure". Roller bandages are commonly used to treat muscle sprains and strains by reducing the flow of blood to a particular area by the application of even stable pressure which can restrict swelling at the place of injury.

Advanced Features:

- 🏠 High-quality cotton
- 🏠 washable
- 🏠 Reusable
- 🏠 Plastic / Metal Container
- 🏠 Superior quality

Product Code:

Product	Size	Code
Roller Bandage	6 cm	05C0506
Roller Bandage	8 cm	05C0508
Roller Bandage	10 cm	05C0510
Roller Bandage	15 cm	05C0515

Gauze Swabs – 05C06

Gauze swabs are a useful utility product in a kit can be used for wound dressing, padding, protection, blood spill, applying antiseptic and much more. It is especially useful for dressing wounds where other fabrics might stick to the burn or laceration.

Advanced Features:

- 🩹 Made from 100 % highly absorbent cotton yarn
- 🩹 Bleached by hydrogen peroxide to good white
- 🩹 Easy for cleaning the wounds
- 🩹 Soft & absorbent and conforming to body contours
- 🩹 Help in faster healing of the wound+
- 🩹 Setrile /Non-Sterile

Product Code:

Product	Size	Code
Gauze Swabs	5 cm x 5 cm	05C0605
Gauze Swabs	7.5 cm x 7.5 cm	05C0607
Gauze Swabs	10 cm x 10 cm	05C0610

Eye Dressing Pad – 05C07

It is often worn by people to cover a lost or injured eye, but it also has a therapeutic use in children for the treatment of amblyopia. Eyepatches used to block light while sleeping are referred to as a sleep mask.

Advanced Features:

- 👉 Made from highly absorbent cotton
- 👉 Highly absorbent and open at the sides
- 👉 Easy for cleaning the wounds
- 👉 Soft & absorbent and conforming to body contours
- 👉 Color: White
- 👉 Setrile /Non-Sterile

Product Code:

Product	Size	Code
Eye Dressing Pad	8 x 11 cm	05C07

Wound Plaster – 05C08

Elastoplast Antibacterial Waterproof Wound Plasters contain antiseptic silver to prevent infections and keep wounds clean. The extra-large wound pad is non-stick and effective against a broad spectrum of bacteria. Covers larger wounds and minimises healing complications.

Advanced Features:

-  Waterproof
-  Sterility guaranteed unless wrapper opened or damaged
-  Good adhesive ability
-  With or without ventilation hole bandage
-  Disposable
-  Release Pain From illness

Product Code:

Product	Size	Code
Wound Plaster	-	05C08

Abdominal Swabs – 05C09

Advin, Abdominal Swabs used During cardiac surgery with heart-lung-machine support, abdominal swabs are routinely used to adsorb blood from the operation field. In part, abdominal swabs exhibit procoagulant activity, which is usually considered harmless.

Advanced Features:

- 🏠 Made out of 100% cotton Gauze Fabric
- 🏠 Plain & X-Ray Detectable
- 🏠 Highly Absorbent
- 🏠 Smooth texture
- 🏠 Pre-washed and packed in a Sterile tray pack
- 🏠 Folded and interlocked edges to minimize lint and loose threads.

Product Code:

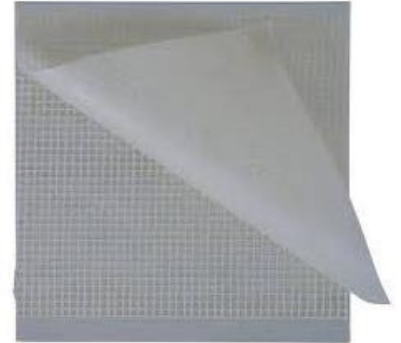

Product	Size	Code
Abdominal Swabs	-	05C09

Paraffin Gauze – 05C10

Paraffin gauze dressings are used to dress denuded areas and burn wounds, and hence, these gauzes are especially coated with soft paraffin.

Advanced Features:

- 👂 Paraffin acts as a soothing agent
- 👂 The antibiotic / antiseptic in it helps in the healing process
- 👂 Interlocking gauze yarn threads, minimize when dressing is cut to shape
- 👂 Sterilized by gamma radiation
- 👂 Does not stick to the wound and does not disturb the dressing process
- 👂 Reduces risk of colonization

Product Code:

Product	Size	Code
Paraffin Gauze	10cm x 10cm	05C010

Alcohol Swab - 05C11

Advin, Alcohol swabs are gauze swabs that are saturated with 70% isopropyl alcohol and are used to disinfect cuts, scrapes and intact skin. These alcohol swabs are used in clinics, nursing homes, hospitals, vaccination set ups and first aid kits to quickly and efficiently disinfects the area to be treated.

Advanced Features:

- 🕒 Best Quality Thicker and softer Swabs
- 🕒 Four-layer wrapper provides air-tight seal - prevents leakage and drying out
- 🕒 70% V/V Isopropyl Alcohol for optimum anti-bacterial action
- 🕒 Made by Non - woven Material

Product Code:

Product	Size	Code
Alcohol Swab	-	05C011

Dressing Pad - 05C12

Advin, Dressing Pad is a sterile pad or compress applied to a wound to promote healing and protect the wound from further harm. A dressing pad is designed to be in direct contact with the wound, as distinguished from a bandage, which is most often used to hold a dressing in place.

Advanced Features:

-  Fine absorbent cotton covered with a layer of low limit gauze fabric / Non woven fabric
-  Non-Sterile
-  The effective combination of weight and open aperture allows each sponge to wick quicker and offer superior absorbency
-  It maximises absorbency, wicking and dispersal of wound exudates

Product Code:

Product	Size	Code
Dressing Pad	10 cm x 10 cm	05C1210
Dressing Pad	10 cm x 20 cm	05C1220

Absorbable Hemostatic Gelatin Sponge – 05C13

Advin health care provides Absorbable Hemostatic Gelatin Sponge is a quick and effective hemostatic which stops bleeding fast. It reduces intra operative bleeding and surgery time. It is non-toxic, non-allergenic, non-immunogenic, and non-pyrogenic. It is already gamma-sterilized, and thus does not need to be resterilized.

Advanced Features:

- 👉 Reduces post operative time and fastens recovery time for the patient
- 👉 Significantly reduces blood loss
- 👉 Absorbs 40-50 times its own weight of water/oxalate blood
- 👉 No reported side effects
- 👉 Gamma Sterile and ready to use
- 👉 Does not interfere with tissue healing
- 👉 Leaves no residue and encapsulation
- 👉 Extremely Cost effective
- 👉 Easy to cut according to need
- 👉 Saves Valuable time for surgeons
- 👉 Secure and speedy haemostasis

Application:

- 👉 Abdominal Surgery
- 👉 Anorectal Surgery
- 👉 Dental Surgery
- 👉 ENT Surgery
- 👉 Genito Urinary Surgery
- 👉 Gynaecological Surgery
- 👉 Hysterectomy
- 👉 Neuro Surgery
- 👉 Orthopaedic Surgery

Surgical Mesh – Hernia - 05D01

ADVIN Surgical Meshes is a synthetic surgical mesh used for hernia and other soft tissue repairs. It works as a scaffold. Surgeons stitch torn tissue to the mesh to close a hernia. This leaves less tension on the damaged tissue.

Advanced Features:

- 👉 High strength and burst resistance for permanent support
- 👉 No shrinkage providing long term material stability
- 👉 Excellent multi-directional mechanical properties and exceptional resistance to tearing
- 👉 Transparent and flexible for easy use in coeloscopy and laparotomy.
- 👉 Permeable giving it high capacity for colonization, good tissue ingrowth and integration
- 👉 Laser cut providing precise shape and preventing edges from fraying
- 👉 Good shape memory

Crape Bandage – 05E01

Cotton Crape Bandages which are useful in sprains and other minor muscle injuries. Our company recognized as a leading manufacturer of cotton crepe bandages. Crape Bandages also known as Cotton Crape Bandges.

Advanced Features:

- 👂 Superior quality of viscose & cotton yarns
- 👂 Muscular and Joints Flexibility
- 👂 Super Elasticity smooth Pressure
- 👂 Permits normal skin breathing
- 👂 Used in Orhtopedic and sports injuries
- 👂 Light support for minor spraind and compression
- 👂 Centre line for accurate to overlap

Elastic Adhesive Bandage – 05E02

The Elastic Adhesive bandage (EAB) is a light weight strapping bandage that can be used for ankle taping, knee taping, hand taping and wrist taping. It is frequently used by sports physios in the prevention and treatment of sprained ankles.

Advanced Features:

- 👂 Best effective support, strong adhesiveness & evenly spread perforated zinc oxide adhesive mass helps to skin breath
- 👂 Water-repellent content protect from soaking & spoiling
- 👂 Super Elasticity smooth Pressure
- 👂 Specifically designed for support to muscle injuries, such as hamstring of calf strains, weak joints and compression to soft tissue
- 👂 Permits sweat to evaporate and free passage of air to prevent skin maceration and keep firmly adhered throughout lengthy treatment

Product Code:

Product	Size	Code
Elastic Adhesive Bandage	6 cm x 4/6 mtr	05E0206
Elastic Adhesive Bandage	7.5 cm x 4/6 mtr	05E0207

Plaster Of Paris Bandage – 05E03

Plaster of Paris is the traditional and most widely used cast material for immobilisation of fractures, diseased bones and joints, correction of deformities, contact casting (diabetic foot) and acute splinting.

plaster bandages, are mainly used to protect injured anatomical structures (mainly broken bones) and also served to stability the bones while healing. Once it has been applied, the gauze hardens after water is added.

Advanced Features:

- 🏠 Fabric coated with POP mass which is more sticky & adheres to cloth more
- 🏠 less powder loss even when dipped in water
- 🏠 Superior Quality Orthopedic Plaster
- 🏠 Short water immersion time
- 🏠 Durable, creamy and having good cast strength
- 🏠 One layered cast has more than double the strength as compared to our competitors
- 🏠 Bandages are required to make a plaster & resultant cast is of light weight

Product Code:

Product	Size	Code
Plaster of Paris Bandage	10 cm x 2.7 mtr	05E0310
Plaster of Paris Bandage	15 cm x 2.7 mtr	05E0315

Orthopaedic Bandage – 05E04

Orthopaedic is a highly absorbent material suitable for use around wounds. This soft natural material creates a comfortable under cast surface for either synthetic or natural casting materials.

Advanced Features:

- 👂 Cast padding give excellent skin tolerance
- 👂 High comfortable, permeable to air
- 👂 Less chance of pressure sores occurring in your body
- 👂 Protect bony prominences
- 👂 Uniform thickness
- 👂 Absorb Exudates and sweat
- 👂 Reduce chance of skin maceration & irritation

Thoracic Catheter – 05F06

Advin health care provides thoracic catheter with metal trocar international quality standard. Thoracic catheter are used for rapid non-operative pleural and chest drainage allow safe and effective penetration with exact placement. Thoracic catheter also known chest drainage catheter.

Advanced Features:

- 🩺 Kink resistance, smooth finish
- 🩺 Comfortable & easy to pass
- 🩺 Radiopaque
- 🩺 Smooth taper tip
- 🩺 Non-toxic
- 🩺 Made in medical grade pvc
- 🩺 Large eyes for efficient drainage
- 🩺 One loose connector provided to facilitate the immediate connection of the catheter with drainage set.
- 🩺 Individually packed
- 🩺 Sterile, Single use only

Chest Drainage Bag – 05F08

Advin health care provides Chest Drainage Bag With International quality standards. chest drainage system is used to restore proper air pressure to the lungs, re-inflate a collapsed lung as well as remove blood and other fluids.

Advanced Features:

- 🏠 Ambulatory Chest Drainage System Chest Bag is used to collect drainage fluid from chest cavity
- 🏠 PVC drainage bag with 1000ml capacity suitable for thoracic application
- 🏠 Under Water sealed drainage system for collection of wound
- 🏠 Manufactured from non toxic, non irritant medical grade
- 🏠 Special hanger given to carry the bag
- 🏠 Individually packed & sterile

Product Code:

Product	Size	Code
Chest Drainage Bag	1000 ml	05F0810

Chest Drainage Bottle – 05F09

Advin health care provides Chest Drainage Bottle With International quality standards. Chest Drainage Bottle is a single use disposable unit which is designed to forward the collected Drainage into a collection chamber by the liquid static suction effects.

Advanced Features:

- 🏥 Super smooth kink resistance tubing ensures uniform flowrate
- 🏥 Makes it easy to observe and measure the collected drainage content during surgery
- 🏥 Facilitates safe Retrograde Technique
- 🏥 Product is suitable for pleural drainage in conjunction with chest drainage catheter in Cardiac and Thoracic procedures
- 🏥 Easy to read graduation helps to determine the drain volume precisely
- 🏥 Clear easy to ready graduations marked on bottle to determine the amount of collection
- 🏥 Available with DEHP Free Material
- 🏥 Sterile / Disposable / Individually Packed

Surgical Skin Marker Pen – 05F15

Advin health care provides Surgical Skin Marker Pen With International quality standards. Skin marker is a medical pen used for marking on the patient’s skin before or during surgical procedures. Skin marker is used in marking and selecting the surgical sites before or during the surgical procedure.

Advanced Features:

-  Long-lasting
-  scrub-resistant
-  Containing primarily non-toxic, nonallergenic
-  Non-irritating gentian violet
-  Single-use, radiation-sterilized product that will not come off easily during the disinfection procedure
-  Convenient to use in general surgery, plastic surgery, orthopedic surgery, neurosurgery, cardiovascular surgery, and radiation therapy

Product Code:

Product	Size	Code
Surgical Skin Marker Pen	-	05F15

Umbilical Cord Clamp – 05F16

Advin health care provides Umbilical Cord Clamp With International quality standards. The umbilical cord is the baby's lifeline to the mother during pregnancy.

It's no longer needed once the baby is born. Within a few minutes after birth, the cord is clamped and cut close to the navel. The clamp helps stop bleeding from the blood vessels in the umbilical cord.

Advanced Features:

- 👉 Clamps arms inclined at a suitable angle for easy movement for clamping
- 👉 Designed to clamp the umbilical cord soon after the birth
- 👉 Finger grip to ensure safe and convenient handling, particularly for wet gloves
- 👉 Provided with grooves all along the length to prevent slip of the umbilical cord and to retain it in same position
- 👉 Make available with double purpose security lock with a click to indicate correct locking and protect against accidental reopening

Product Code:

Product	Size	Code
Umbilical Cord Clamp	-	05F16

Infant Feeding Tube – 05G01

Infant Feeding Tube is a narrow-bore tube passed into the stomach via the nose. It is used for short- or medium-term nutritional support, and also for aspiration of stomach contents - eg, for decompression of intestinal obstruction.

Advanced Features:

- 👂 Manufactured from non toxic, medical grade PVC compound
- 👂 Distal end is coned with steel balls sealed into the tube to facilitates easy insertion
- 👂 Four lateral eyes for efficient drainage
- 👂 Radio opaque line provided throughout the tube for X-ray visualization
- 👂 Proximal end is provided with Universal Funnel Connector for easy extension
- 👂 ETO Sterile, Individually packed
- 👂 Length: 52 cm

Product Code:

Product	Size	Code
Infant Feeding Tube	5 FG	05G0105
Infant Feeding Tube	6 FG	05G0106

Ryle Tube – 05G02

Ryles tube is a narrow-bore tube passed into the stomach via the nose. It is used for short- or medium-term nutritional support, and also for aspiration of stomach contents - eg, for decompression of intestinal obstruction.

Advanced Features:

- 👂 Manufactured from non toxic, medical grade PVC compound
- 👂 Distal end is coned with steel balls sealed into the tube to facilitates easy insertion
- 👂 Four lateral eyes for efficient drainage
- 👂 Radio opaque line provided throughout the tube for X-ray visualization
- 👂 Proximal end is provided with Universal Funnel Connector for easy extension
- 👂 ETO Sterile, Individually packed
- 👂 Length: 105 cm

Levin Tube – 05G03

Levin Tube used for the aspiration of gastric and intestinal contents and administration of tube feedings or medications.

Advanced Features:

- 👂 Manufactured from non toxic, medical grade PVC compound
- 👂 Soft and Kink Resistance tube
- 👂 Closed distal end to assist the passage of tube during intrubations
- 👂 Radio opaque line provided throughout the tube for X-ray visualization
- 👂 Four lateral eyes are in tube for respiration
- 👂 ETO Sterile, Individually packed
- 👂 Length: 105 cm

Umbilical Catheter – 05G05

An umbilical line is a catheter that is inserted into one of the two arteries or the vein of the umbilical cord. Generally the UAC/UVC (Umbilical Artery Catheter/Umbilical Vein Catheter) is used in Neonatal Intensive Care Units (NICU) as it provides quick access to the central circulation of premature infants.

Advanced Features:

- 👉 Manufactured from non toxic, medical grade PVC compound
- 👉 Soft and Kink Resistance tube
- 👉 Smooth round tip for atraumatic insertion and well-finished surface facilitate smooth passage in the vein
- 👉 Markings at every cm to ascertain depth of insertion
- 👉 Radio opaque line provided throughout the tube for X-ray visualization
- 👉 Proximal end provided with Luer female connector for easy connection to the I.V. therapy equipment
- ETO Sterile, Individually packed
- 👉 Length: 40 cm

Kehr T Tubes – 05G06

Kehr's T-tube is used for short term post operative drainage of common bile duct. T Tube is a draining tube placed in the common bile duct after Common Bile Duct (CBD) exploration with supra-duodenal choledochotomy.

Advanced Features:

- 🏠 Manufactured from non toxic, medical grade PVC compound
- 🏠 Soft and Kink Resistance tube
- 🏠 Radio opaque line provided throughout the tube for X-ray visualization
- 🏠 Smooth tube surface to prevent clogging
- 🏠 ETO Sterile, Individually packed

Colostomy Bag – 05G07

A colostomy bag, also called a stoma bag or ostomy bag, is a small, waterproof pouch used to collect waste from the body. During a surgical procedure known as a colostomy.

Ostomy Bag:

- 🩺 Thin & flexible skin barrier
- 🩺 Quite, soft and Odour barrier pouch material
- 🩺 Very gentle & tender for skin around stoma
- 🩺 Max. cut size: 60 mm

Product Code:

Product	Size	Code
Ostomy Bag	Transparent	05G070101
Ostomy Bag	Beige	05G070102

Comfort Ostomy Bag

- 🩺 Thin & flexible skin barrier
- 🩺 With integrated roll & press closure with double lock
- 🩺 Max size: 75 x 60 mm oval shape cutting size

Product Code:

Product	Size	Code
Comfort Ostomy Bag	Transparent	05G070201
Comfort Ostomy Bag	Beige	05G070202

Premium Ostomy Bag

- 👉 Durable skin barrier for extended wear time
- 👉 Ideal for difficult to manage stomas
- 👉 With integrated roll & press closure with double lock
- 👉 Max cut Size – 60 mm

Product Code:

Product	Size	Code
Premium Ostomy Bag	Transparent	05G070301

Extra Large Ostomy Bag

- 👉 Ideal for post-operative
- 👉 Very gentle & tender for skin around stoma
- 👉 High absorption rate and saturation point
- 👉 Max. cut size – 90 mm

Product Code:

Product	Size	Code
Extra-large Ostomy Bag	Transparent	05G070401

Ostomy/Fistula drainage bag

- 🏠 Available with and without access window and drainage spout
- 🏠 Expandable access windows side pouch layer ideal for severally protruded stomas
- 🏠 Easy and painless peel off
- 🏠 Max. cut size – 110 mm

Product Code:

Product	Size	Code
Ostomy/ Fistula Drainage Bag	Transparent	05G070501
Ostomy / Fistula Drainage Bag	With window and spout	05G070502

Urostomy Bag

- 🏠 Durable skin barrier with extended wear time
- 🏠 Non return valve prevents urine back flow / reflux
- 🏠 Drainage tap with double locking for extra security
- 🏠 Max. cut size – 60 mm

Product Code:

Product	Size	Code
Urostomy Bag	Transparent	05G070601

Durable Wafers

- Ensures leak proof extended wear time
- Simple locking mechanism ideal for elderly ostomates
- Just align, gentle push & feel the multiple clicks to lock
- Easy and painless peel off

Product Code:

Product	Size	Code
Durable Wafers	38 mm	05G070738
Durable Wafers	45 mm	05G070745
Durable Wafers	57 mm	05G070757
Durable Wafers	70 mm	05G070770
Durable Wafers	90 mm	05G070790

Flexible Wafers

- Thin & flexible skin barrier easily adapts to body contours
- Integrated skin barrier adhesive will not break down easily in contact with stoma fluid
- Simple locking mechanism ideal for elderly ostomates
- Just align, gentle push & feel the multiple clicks to lock

Product Code:

Product	Size	Code
Flexible Wafers	38 mm	05G070838
Flexible Wafers	45 mm	05G070845
Flexible Wafers	57 mm	05G070857
Flexible Wafers	70 mm	05G070870

Drainable Pouches

-  Quiet, soft and Odour barrier pouch with belt tabs
-  Available with and without integrated roll & press closure
-  Colour Beige

Product Code:

Product	Size	Code
Drainable Pouches	38 mm	05G070938

Urostomy Pouches	57 mm	05G071057
Urostomy Pouches	70 mm	05G071070

Colostomy Kit – 05G08

Advin Health care provides colostomy kit with international quality standard. Colostomy Kit used for long term for perfect relief & comfort during prolonged use

Advanced Features:

- 👉 Flexible Light Weight & given belt to fit the body well
- 👉 15mm U foam padding is provide between the sleeve & body for better comfort
- 👉 Provides with extra bags
- 👉 Non-Sterile & Individually packed

Product Code:

Product	Size	Code
Colostomy Kit	-	05G08

Abdominal Drain Kit – 05G09

Abdominal Drainage Kit is specially designed for post operative abdominal drainage. Abdominal drainage is a procedure to drain fluid from the peritoneal cavity, the space between the abdominal wall and organs. Inflammation, infection and traumatic injury, among other things, can cause fluid to build up in the cavity.

Advanced Features:

- 👉 Soft drainage catheter & collection bag of 2000 ml
- 👉 Made for post operative abdominal drainage
- 👉 Soft & smooth catheter with large atraumatic eyes for efficient drainage
- 👉 Radio opaque line on the catheter helps X-ray visualization
- 👉 Hanger for carrying facilities
- 👉 Superior smooth kink resistance tubing ensures uniform flowrate
- 👉 Transparent sheeting allows visual inspection
- 👉 Sterile & Individually packed

Product Code:

Product	Size	Code
Abdominal Drain Kit	12 FG	05G0912
Abdominal Drain Kit	14 FG	05G0914
Abdominal Drain Kit	16 FG	05G0916

Abdominal Drain Kit	34 FG	05G0934
Abdominal Drain Kit	36 FG	05G0936

Corrugated Drainage Sheet – 05G10

Corrugated drains are intended for open passive drainage, used in situations where wounds must be kept open. They are placed directly into the wounds left to heal by secondary intent. The product is intended for single use only.

Advanced Features:

-  Manufactured from non-toxic, non irritant medical grade PVC Material
-  Multichannel drainage system for efficient drainage during operation
-  Provided with X-ray opaque line
-  Sterile & Individually packed

Product Code:

Product	Size	Code
Corrugated Drainage Sheet	25 mm x 250 mm	05G10

Silicone Resuscitator – 05H01

A manual resuscitator bag is used to provide air by hand, if your patient is not breathing. The bag can also be used to give large breaths after suctioning, a trach change or when a ventilator circuit is being changed. The bag must always be near your patient in case of an emergency.

Advanced Features:

- 👉 1600 ml. self inflating double ended blue silicone bag
- 👉 Mounts and side feed oxygen inlet
- 👉 Type L non- rebreathing valve
- 👉 Easy to clean and sterilize
- 👉 Ergonomic, Light weight bag design

Product Code:

Product	Size	Code
Silicone Resuscitators	Adult	05H01A
Silicone Resuscitators	Paediatric	05H01P
Silicone Resuscitators	Neonatal	05H01N

Oxygen Reservoir – 05H02

Advin Health Care Provided Oxygen Reservoir with international quality standard. Oxygen Reservoir systems incorporate a mechanism for gathering and storing oxygen during inspiration and exhalation. Patients draw from the oxygen reservoir anytime their minute ventilation flow exceeds the device delivery flow.

Advanced Features:

- 👉 Super smooth kink resistance tubing ensures uniform flowrate
- 👉 Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source
- 👉 Star lumen main tube to avoid accidental blockage
- 👉 Smooth and feathered edge of face mask for patient comfort and reducing irritation points
- 👉 High concentration oxygen mask with tubing is intended to supply oxygen or other gases to an individual for oxygen therapy, and the reservoir bag is able to avoid rebreathing
- 👉 Tube Length: 210 cm
- 👉 Available with DEHP free Material
- 👉 Sterile / Disposable

Product Code:

Product	size	code
Oxygen Reservoir	Adult	05H02A
Oxygen Reservoir	Paediatric	05H02P

Silicone Breathing Bag – 05H03

Advin Silicone reusable breathing circuit bags are used in operating rooms and connect to anesthesia machines to support the patient with their respiration when the operator has selected modes for manual ventilation.

Advanced Features:

- 🏠 Rebreathing Bags are made of medical grade silicone material
- 🏠 Anesthesia Rebreathing Bags act like a reservoir for expired gases and are used to push gases in the lungs
- 🏠 They reduce the risk of trauma
- 🏠 These Rebreathing Bags are Reusable
- 🏠 It is widely used by the military people

Product Code:

Product	size	code
Silicone Breathing Bag	0.5 ltr	05H0305S
Silicone Breathing Bag	1 ltr	05H0310S
Silicone Breathing Bag	1.5 ltr	05H0315S
Silicone Breathing Bag	2 ltr	05H0320S

Latex Breathing Bag – 05H04

Advin Latex breathing bags are used in operating rooms and connect to anesthesia machines to support the patient with their respiration when the operator has selected modes for manual ventilation.

Advanced Features:

- 👉 Rebreathing Bags are made of medical grade Green latex in green antistatic rubber
- 👉 Anesthesia Rebreathing Bags act like a reservoir for expired gases and are used to push gases in the lungs
- 👉 They reduce the risk of trauma
- 👉 These Rebreathing Bags are Reusable
- 👉 It is widely used by the military people

Product Code:

Product	size	code

Latex Breathing Bag	1000 ml	05H0310L
Latex Breathing Bag	1500 ml	05H0315L
Latex Breathing Bag	2000 ml	05H0320L

Suction Catheter– 05H04

Advin Health Care Provided Suction Catheter with international quality standard. A suction catheter is a hollow tube that is inserted into the upper airway to drain the mucus, saliva, and other debris that obstructs a person's breathing.

It is not inserted into the chest cavity like an intercostal catheter, but it drains the waste from the upper airway, trachea, and main bronchi.

Advanced Features:

- 👉 Catheter is manufactured from non toxic non irritant medical grade PVC
- 👉 Frozen surface tubing for smooth intubation
- 👉 Proximal end with funnel type colour connector
- 👉 Catheter tube is Opened distal end with one lateral eye
- 👉 Length: 50 to 55 cm
- 👉 Color coded connector for easy identification of size

Product Code:

Product	Colour	size	code
Suction Catheter	Green	6	05H0406
Suction Catheter	Blue	8	05H0408
Suction Catheter	Black	10	05H0410
Suction Catheter	White	12	05H0412
Suction Catheter	Green	14	05H0414
Suction Catheter	Orange	16	05H0416
Suction Catheter	Red	18	05H0418
Suction Catheter	Yellow	20	05H0420

Suction Catheter Thumb Control – 05H05

Advin Health Care Provided Suction Catheter Thumb Control with international quality standard. A suction catheter is a hollow tube that is inserted into the upper airway to drain the mucus, saliva, and other debris that obstructs a person's breathing.

It is not inserted into the chest cavity like an intercostal catheter, but it drains the waste from the upper airway, trachea, and main bronchi.

Advanced Features:

- 👂 Removes secretions from mouth, oropharynx trachea & bronchial tube
- 👂 Opened distal end with one lateral eye
- 👂 Frozen surface tubing for smooth intubation
- 👂 Soft, frosted and kink resistant PVC tubing with maximum patient comfort
- 👂 Proximal end with funnel type colour connector
- 👂 Catheter tube is Opened distal end with one lateral eye
- 👂 Suction Catheter Length: 53cm

Product Code:

Product	Colour	size	code
Suction Catheter	Green	6	05H0506

Suction Catheter	Yellow	20	05H0520

Tracheostomy Tube - Plain – 05H06

Advin Health Care Provided Tracheostomy Tube with international quality standard. It is Used to maintain a patient airway through tracheostomy and mechanically ventilate patients

Advanced Features:

- 👂 Made from non-toxic, non-irritant, medical grade clear PVC
- 👂 Kink resistant, thin-walled, thermo-sensitive tube, softens at body temperature Bite block to prevent biting of tongue and airway occlusion
- 👂 Smooth inside/outside surface for ease in intubation, extubation and suctioning
- 👂 Kink resistant inflation tube to ensure patient safety during cuff inflation and deflation
- 👂 Radio opaque line and markings provided to facilitate identification of tube position
- 👂 Universal 15 mm connector at proximal end
- 👂 E.T.O Sterile and Pyrogen free. For single patient use

Laryngeal Mask Airway – 05H07

Advin Health Care Provided Laryngeal Mask Airway with international quality standard. A laryngeal mask airway (LMA) also known as laryngeal mask is a medical device that keeps a patient's airway open during anaesthesia or unconsciousness. It is a type of supraglottic airway device.

Advanced Features:

- 🏠 Supraglottic, non-invasive airway management device
- 🏠 Anatomically engineered mask provided with separate inflation line
- 🏠 Made from non toxic, non irritant medical grade Polymer
- 🏠 Provided with universal 15 mm connector
- 🏠 Marking provided along the length to facilitate identification of tube position
- 🏠 ETO sterile and pyrogen free
- 🏠 Pilot balloon to check inflation & deflation of cuff

Product Code:

Product	size	code
Laryngeal Mask Airway	1	05H0710
Laryngeal Mask Airway	1.5	05H0715
Laryngeal Mask Airway	2	05H0720
Laryngeal Mask Airway	2.5	05H0725
Laryngeal Mask Airway	3	05H0730
Laryngeal Mask Airway	4.5	05H0745

Guedel Airway – 05H08

Advin Health Care Provided Guedel Airway with international quality standard. An oropharyngeal airway (also known as an oral airway, OPA or Guedel pattern airway) is a medical device called an airway adjunct used to maintain or open a patient's airway. It does this by preventing the tongue from covering the epiglottis, which could prevent the person from breathing.

Advanced Features:

- 👂 Used to maintain an unobstructed oro-pharyngeal airway
- 👂 Bite block to prevent biting of tongue and airway occlusion
- 👂 Rounded atraumatic edges
- 👂 Guedel Airways is Sterile, Latex Free
- 👂 Guedel Airway Set, Color Coded, Each Sizes
- 👂 Made from rigid, non-toxic medical grade PVC

Product Code:

Product	Colour	size	code
Guedel Airway	-	000	05H08000

Guedel Airway	Yellow	3	05H083
Guedel Airway	Red	4	05H084
Guedel Airway	Orange	5	05H085

Endotracheal Tubes – 05H09

Advin Health Care Provided Endotracheal Tubes with international quality standard. It is Used to maintain a patient airway and mechanically ventilate patients. An endotracheal tube is a flexible plastic tube that is placed through the mouth into the trachea to help a patient breathe.

Advanced Features:

- 👤 Made from non-toxic, non-irritant medical grade clear PVC
- 👤 Kink resistant inflation tube to ensure patient safety during cuff inflation and deflation
- 👤 Radio opaque line and markings provided to facilitate identification of tube position
- 👤 Thin-walled, thermo-sensitive tube, softens at body temperature
- 👤 Smooth inside/outside surface for ease in intubation, extubation and suctioning
- 👤 Smooth polished murphy eye, distal end and tapered balloon end for atraumatic intubation and extubation
- 👤 Universal 15 mm connector at proximal end
- 👤 E.T.O Sterile and Pyrogen free. For single patient use

Reinforced Endotracheal Tubes – 05H10

Advin Health Care Provided Reinforced Endotracheal Tubes with international quality standard. An endotracheal tube is a flexible plastic tube that is placed through the mouth into the trachea to help a patient breathe.

Advanced Features:

- 👂 Made from non-toxic, non-irritant medical grade clear PVC
- 👂 Uniform spiral metal-reinforced tube wall to prevent the tube from kinking
- 👂 Reinforcement supports tube position and verification during X-ray
- 👂 Accurate and safe positioning ensured by graduation marks and tip-to-tip radiopaque line
- 👂 High volume / low pressure cuff ensures efficient low pressure cuff seal
- 👂 Universal 15 mm connector at proximal end
- 👂 E.T.O sterile and pyrogen free. For single patient use

Nasopharyngeal Airway – 05H11

Advin Health Care Provided Nasopharyngeal Airway with international quality standard. Nasopharyngeal airway, also known as an NPA, nasal trumpet (because of its flared end), or nose hose. It is Used to secure and open airways for patients in case of emergencies.

Advanced Features:

- 👉 Provided with rotatable flange for easy securing and pulling out
- 👉 Made from soft, non-irritant medical grade PVC
- 👉 Anatomically designed with smooth round edges
- 👉 Thin wall and kink resistance for maximum patient comfort
- 👉 E.T.O. sterile & pyrogen free. For single use only

Product Code:

Product	size	code
Nasopharyngeal Airway	6 mm	05H116
Nasopharyngeal Airway	7 mm	05H117
Nasopharyngeal Airway	8 mm	05H118

Closed Suction Set – 05H12

Advin Health Care Provided Closed Suction Set with international quality standard. It is used to maintain ventilation and oxygen therapy while suctioning in mechanically ventilated patients.

Advanced Features:

- 🏥 Minimises the risk of Ventilator Associated Pneumonia (VAP)
- 🏥 Catheter with lateral eyes, smooth tip and depth markings for maximum patient comfort
- 🏥 Made from non-toxic, medical grade PVC
- 🏥 Kit comes with 3 easily replaceable catheters,
- 🏥 MDI port provides an effective, quick and convenient way of drug delivery
- 🏥 On/off valve allows suction catheter tip to be isolated and creates an enclosed cleaning chamber
- 🏥 Irrigation port with one way valve allows lavage and irrigation of the suction catheter
- 🏥 Transparent connectors and durable sleeve facilitates catheter manipulation and prevents infiltration of blood and sputum
- 🏥 360° swivel elbow enables rotation for enhanced patient comfort and reduces torque

Product Code:

Product	size	code
Closed Suction Set	6	05H1206
Closed Suction Set	8	05H1208
Closed Suction Set	10	05H1210
Closed Suction Set	12	05H1212
Closed Suction Set	14	05H1214
Closed Suction Set	16	05H1216

Nasal Oxygen Cannula – 05H13

Advin Health Care Provided Nasal Cannula/Twin Bore Nasal Oxygen Set with international quality standard. Medical grade Twin Bore Set is used as an essential part of oxygen mask.

Advanced Features:

- 👂 Used for efficient oxygen administration to patients
- 👂 Made from soft, non-toxic, medical grade PVC
- 👂 Twin nasal tips ensure equal volume of oxygen to both nasal passages for greater patient comfort
- 👂 Multi-channel tube ensures regular supply of oxygen even if the tube is accidentally kinked
- 👂 Proximal end of tube provided with universal connector for easy connection with oxygen source

Product Code:

Product	Size	code
Nasal Oxygen Cannula	2 mtr	05H1302
Nasal Oxygen Cannula	5 mtr	05H1305
Nasal Oxygen Cannula	10 mtr	05H1310
Nasal Oxygen Cannula	20 mtr	05H1320

Oxygen Mask – 05H14

Advin Health Care Provided Oxygen Mask with international quality standard. An oxygen mask provides a method to transfer breathing oxygen gas from a storage tank to the lungs. Oxygen masks may cover only the nose and mouth.

Advanced Features:

- 👉 Used for efficient oxygen administration to patient
- 👉 Made from soft, non-toxic, medical grade PVC
- 👉 Proximal end of tube provided with universal connector for easy connection with oxygen source
- 👉 Multi-channel tube ensures regular supply of oxygen even if the tube is accidentally kinked
- 👉 Elastic strap and aluminum nose clip for proper adjustment of mask
- 👉 Available in adult and paediatric options

Product Code:

Product	Type	code
Oxygen Mask	Adult	05H14A
Oxygen Mask	Paediatric	05H14P

Nebulizer Mask / Nebulizer Kit – 05H15

Advin Health Care Provided Nebulizer Mask / Nebulizer Kit with international quality standard. A nebulizer turns liquid medicine into a very fine mist that a person can inhale through a face mask. Nebulizer masks are particularly useful when it comes to giving medicines to children who may not be able to use the mouthpiece properly.

Advanced Features:

- 🏠 Specially designed nebulizer chamber with nebulization rate of approximately 3 cc in 10 minutes
- 🏠 Complete kit consists of: Nebulizer mask ,Nebulizer chamber, 210 mm Star Lumen Tube
- 🏠 Average particle size generation is approximately 2 microns

Product Code:

Product	size	code
Nebulizer Mask	Adult	05H15A
Nebulizer Mask	Paediatric	05H15P

Venturi Mask – 05H16

Advin Health Care Provided Venturi Mask with international quality standard. Venturi masks are commonly used in the hospital to deliver controlled percentages of oxygen. This is important for those at risk of hypercapnic respiratory failure and to accurately assess ventilation and gas exchange.

Advanced Features:

- 👉 Super smooth kink resistance tubing ensures uniform flowrate
- 👉 Smooth and feathered edge of face mask for patient comfort and reducing irritation points
- 👉 Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 👉 Star lumen main tube to avoid accidental blockage
- 👉 Tube size: 210 cm
- 👉 Available with DEHP free material.
- 👉 Individually packed and Sterile ETO
- 👉 Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source
- 👉 Multiflow venturi masks are devices that are constructed to supply oxygen or other gases to an individual

Product Code:

Product	Type	code
Venturi Mask	Adult	05H16A
Venturi Mask	Paediatric	05H16P

Catheter Mount – 05H17

Advin Health Care Provided Catheter Mount with international quality standard. The catheter mount is used as an intermediary connection between the patient and the breathing system. The catheter mount is fitted with a double swivel connector and flexible tubing.

Advanced Features:

- 👉 Provided with Suction & Bronchoscopy Ports
- 👉 Compatible with all Breathing and Ventilator circuits
- 👉 Double swivel connector and flexible tubing provides mobility and flexibility to the patient end of the circuit
- 👉 The catheter mount is fitted with a double swivel connector
- 👉 The tubes are made of a special flexible co-polymer and have a minimal compliance with low dead space volume.
- 👉 Each catheter mount has a 22 mm female / 15 mm male end to connect to the breathing system end 15 mm female end to connect to the endotracheal tube or laryngeal mask

Product Code:

Product	size	code
Catheter Mount	-	05H17

Oxygenator Recovery tube – 05H18

Advin Health Care Provided Oxygenator Recovery tube with international quality standard. T- Oxygenator with T-Piece Kit Designed for use in recovery for the delivery of Oxygen via the patient 15mm ET Connection or Laryngeal mask.

Advanced Features:

- 🏠 7.6mm port for suction with non-popping cap
- 🏠 The kit comprises T-piece with port
- 🏠 22mm -15 cm reservoir flex tube and Oxygen stem with cap
- 🏠 Sterile / Disposable

Options Available:

- 🏠 With or Without 2mtr. Star lumen Oxygen Tube
- 🏠 With or Without 40% or 60% Venturi Valve and 2 mtr. Tubing

Product Code:

Product	size	code
Oxygenator Recovery tube	-	05H18

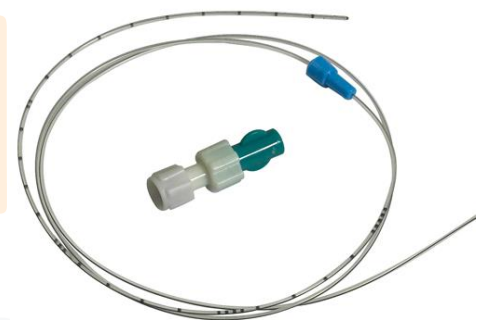

Epidural Catheter – 05H19

Advin Health Care Provided Epidural Catheter with international quality standard. Epidural Catheter is specially designed for short term & long term continuous anaesthesia & pain therapy.

An epidural catheter is a very fine plastic catheter (tube) that is placed through the skin into the epidural space in your spine. This temporary catheter is left in place for a defined period of time normally less than two weeks.

Advanced Features:

- 👉 Flexible & atraumatic soft tip with three lateral eyes reduces the risk of complications
- 👉 Catheter is printed to determine the depth of insertion & accurate placement of catheter in the Epidural space
- 👉 Catheter is made from unique plasticizer - free, latex - free formulation of polymer with excellent bio compatibility
- 👉 Crystal clear catheter with radio opaque line provides clear visualization of blood / CSF
- 👉 Luer lock twist connector is supplied for easy & safe connection
- 👉 Tube Length : 80 cms
- 👉 Sterile / Disposable

Product Code:

Product	size	code
Epidural Catheter	16 G	05H01916
Epidural Catheter	18 G	05H01918
Epidural Catheter	20 G	05H01920

Epidural Needle – 05H20

Advin Health Care Provided Epidural Needle with international quality standard. Epidural needle is simply a needle that is placed into the epidural space. To provide continuous epidural analgesia or anesthesia, a small hollow catheter may be threaded through the epidural needle into the epidural space.

Advanced Features:

- 🏆 Highly suitable for epidural anesthesia
- 🏆 Markings on the needle at every 10 mm distance from tip
- 🏆 Clear polycarbonate hub enables visualization of cerebrospinal fluid (CSF) or blood easily
- 🏆 Polished inner bevel minimizes the risk of catheter shearing
- 🏆 Standard length: 80 mm
- 🏆 Individually packed and sterile ETO

Product Code:

Product	size	code
Epidural Needle	16 G	05H02016
Epidural Needle	18 G	05H02018
Epidural Needle	20 G	05H02020

Disposable Ventilator Circuit – 05H21

Advin Health Care Provided Disposable Ventilator Circuit with international quality standard. Ventilator Circuit is the gas pathway connecting patients lung to the mechanical ventilator, it is essential that Circuit should be highest quality in order to ventilate patient correctly, efficiently and safely.

Advanced Features:

- 👉 Good flexibility and bending resistance, not meander, not broken, that mechanical ventilation in the process smooth gas supply
- 👉 Breathing Circuit uses standard connector that is simple convenience in clinic
- 👉 Size : Adult, Paediatric
- 👉 Sterile / Disposable

Options Available:

- 👉 With or Without Port
- 👉 With or Without "Y"

Product Code:

Product	size	code
Disposable Ventilator Circuit	Adult	05H21A
Disposable Ventilator Circuit	Paediatric	05H21P

Bain Circuits – 05H22

Advin Health Care Provided Bain Circuits with international quality standard. Bain Circuit offered comprises co-axial modification of basic T-piece system which has been developed for facilitating scavenging of waste anesthetic gases.

Advanced Features:

- 👉 As a tube carrying fresh gas, it travels inside outer reservoir tube to endotracheal tube connector
- 👉 The process includes patient inspiring fresh gas from the outer reservoir tube and expiring into reservoir tube
- 👉 Adult: It is based on Mapleson D system, provided with 22 mm corrugated tube, expiratory valve and 2 litre antistatic bag
- 👉 Pediatric : It is based on Mapleson F system, provided with 15 & 10 mm corrugated tube with a 0.5 Itr antistatic Rebreathing Bag and a bag bleed valve.
- 👉 Individually Packed and ETO Sterile

Product Code:

Product	size	code
Bain Circuit	Adult	05H22A
Bain Circuit	Paediatric	05H22P

Breathing Filter/ BBVF / HME Filter – 05H23

Advin Health Care Provided Breathing Filters with international quality standard. It's Used in mechanically ventilated and laryngectomy patients to heat and moisturize the air and help prevent complications. That arise when patients lose the ability to breathe through their nose and upper airway. Captures heat and moisture on expiration and returns it to the patient in inspiration

Advanced Features:

- 🏠 Suitable for spontaneously breathing patients with a tracheotomy tube
- 🏠 Electrostatic filter with 99.99% filtration capacity
- 🏠 Low resistance to flow reduces work of breathing
- 🏠 Light weight, compact design reduces circuit weight
- 🏠 Available in adult and paediatric options

Product Code:

Product	size	code
Breathing Filters	Adult	05H23A
Breathing Filters	Paediatric	05H23P

Mucus Extractor – 05H26

Advin Health Care Provided Mucus Extractor with international quality standard. It's a specially designed for aspiration of secretion from oropharynx in newly born babies.

Advanced Features:

- 👂 Chamber of mucus extractor is transparent & graduated
- 👂 Suitable for mucus specimen for microbial examination
- 👂 Individually packed in poly pouch & sterile ETO
- 👂 Clear transparent container permits immediate visual examination of the aspirate
- 👂 Low friction surface catheter is provided with open end silk smooth round tip for trauma free insertion

Product Code:

Product	size	code
Mucus Extractor	-	05H26

Spirometer - 03001

Advin Health Care Provide Spirometer with international quality standards. Spirometry is used to diagnose asthma, chronic obstructive pulmonary disease (COPD) and other conditions that affect breathing. Spirometry may also be used periodically to monitor your lung condition and check whether a treatment for a chronic lung condition is helping you breathe better.

Advanced Features:

- 👉 Effective design
- 👉 High performance frame
- 👉 Long functional life
- 👉 Inhaled capacity
- 👉 Compact, high quality break-resistant plastic
- 👉 3-ball inhaling breath measurement system
- 👉 Deep breathing Exerciser for comprehensive respiratory fitness
- 👉 3 chambers for differing inhalation rates- from 600cc/sec - 1200 cc/ sec.

Product Code:

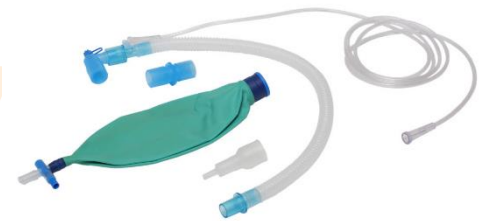

Product	Size	Code
Spirometer	-	03001

Jackson Rees Circuit – 05H28

Advin Health Care Provided Jackson Rees Circuit with international quality standard. The Jackson-Rees Circuit is commonly used in pediatric general anesthesia due to its low resistance and minimal dead space. Patient inhales fresh gas from the machine.

Advanced Features:

- 🏠 Offering low resistance and minimal dead space
- 🏠 500 ml antistatic rebreathing bag with bag bleed valve
- 🏠 The fresh gas is connected directly to the patient connection
- 🏠 Ideal for spontaneous breathing or manually ventilated infants

Unit Consists Of:

- 🏠 Cap 22 mm
- 🏠 15 mm corrugated tube, 0.42 meter long
- 🏠 10 mm corrugated tube, 2 meter long
- 🏠 500 ml litres antistatic rebreathing bag with bleed valve
- 🏠 Connectors
- 🏠 Extra circuit adopters

Product Code:

Product	size	code
Jackson Rees Circuit	-	05H28

Disposable Preparation Razor – 05101

ADVIN Surgical Disposable Preparation Razor are required when prepping the skin for surgery, care or testing. Medical razor disposable razors are a necessary and convenient tool in surgical preparation.

Advanced Features:

- 👉 It Gives a close shave without irritations and pulling of hair
- 👉 The razor blade is made of stainless steel
- 👉 A slight fingertip pressure allows the blade to smoothly shave close to the skin without creating skin irritations or cuts
- 👉 Comb located close to blade

Product Code:

Product	size	Code
Disposable Preparation Razor	-	05101

Urine Culture Bottle – 05102

ADVIN Health Care Provided Urine Culture Bottle With International quality standard. It is used for the collection of a urine sample for laboratory examination.

Advanced Features:

-  Leak proof
-  Easy to carry
-  Seamless finish
-  The bottle has excellent transparency to achieve perfect-culture test performance
-  urine culture bottle is available in the capacities of 30 ml & 50 ml

Product Code:

Product	size	Code
Urine Culture Bottle	30 ml	0510230
Urine Culture Bottle	50 ml	0510250

Sputum Cup – 08M01

ADVIN Health Care Provided Sputum Cup with international quality standard. Sputum cup is a receptacle or other container, made for spitting into. It is widely used in hospitals, nursing homes and other health care centres for different purposes, particularly collection of sputum for laboratory investigations.

Advanced Features:

- 🏥 Sputum Cups are made from the finest quality of medical grade stainless steel and plastic
- 🏥 Durable cup and used in home nursing clinics, hospitals and medical institutions
- 🏥 Autoclavable
- 🏥 Rust and corrosion resistant

Product Code:

Product	Type	Code
Sputum Cup	Stainless Steel	08M01
Sputum Cup	Plastic	08M02

Disposable ECG Electrode – 03D09

ADVIN Health Care Offers Disposable ECG Electrode With International quality standard. Disposable ECG electrodes for use with snap-connect lead wires.

These electrodes detect the small electrical changes that are a consequence of cardiac muscle depolarization followed by repolarization during each cardiac cycle.

Advanced Features:

-  Patient skin should be clean and dry and free excessive hair
-  Highly conductive solid gel
-  Strong adhesion
-  Comfortable foam backing

Adult

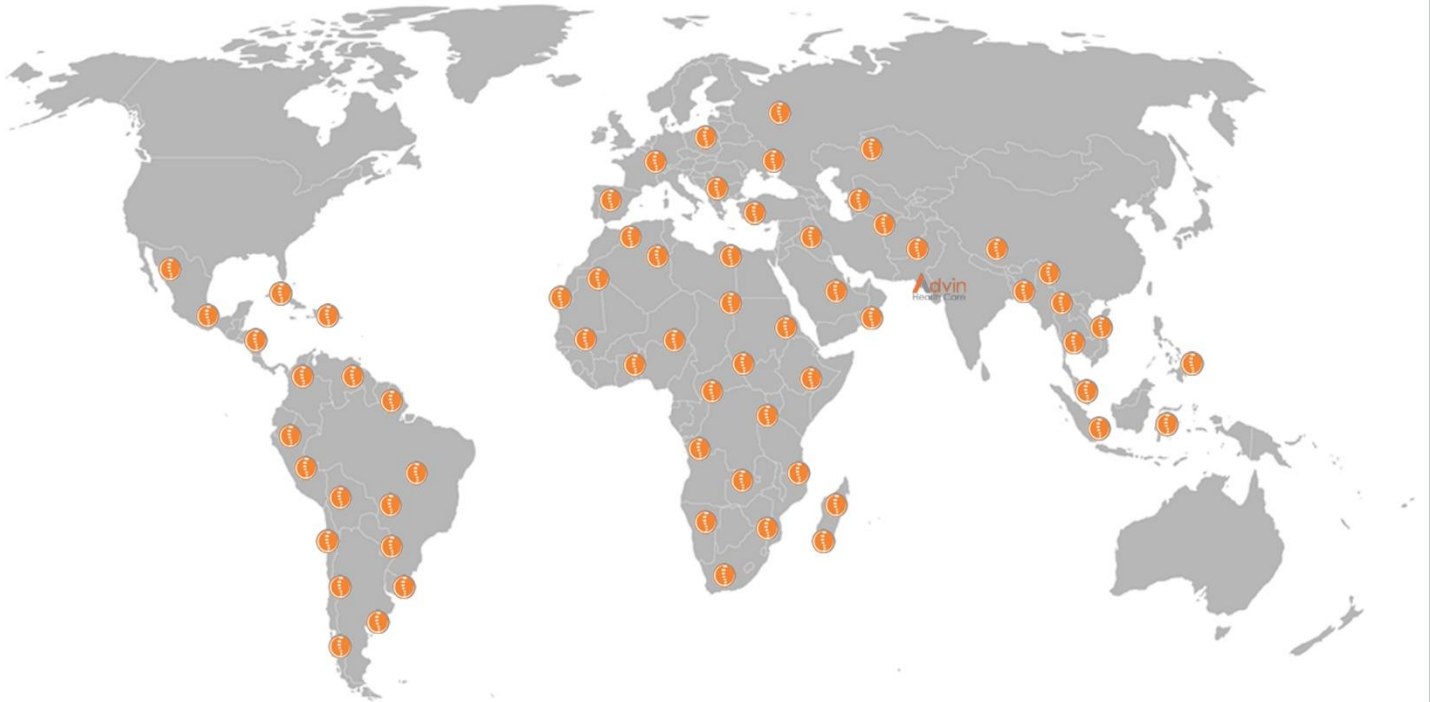

Pediatric

Product Code:

Product	Size	Code
Disposable ECG Electrode	Adult	03D09A
Disposable ECG Electrode	Pediatric	03D09P
